Low−grade glioma;astrocytoma (WHO grade I/II)
High−grade glioma;astrocytoma (WHO grade III/IV)
Medulloblastoma
Ependymoma
Brainstem glioma;Diffuse intrinsic pontine glioma
Ganglioglioma
Craniopharyngioma
Meningioma
Atypical Teratoid Rhabdoid Tumor
Dysembryoplastic neuroepithelial tumor
Neurofibroma;Plexiform
Schwannoma
Supratentorial or Spinal Cord PNET
Choroid plexus papilloma
Dysplasia;Gliosis
Ewings Sarcoma
Teratoma
Chordoma
Metastatic secondary tumors
Malignant peripheral nerve sheath tumor
Pineoblastoma
Choroid plexus carcinoma
Ganglioneuroblastoma
Germinoma
Hemangioblastoma
Langerhans Cell histiocytosis
Sarcoma
Adenoma
Glial−neuronal tumor NOS
Neuroblastoma
Cavernoma
Cyst
Meningioangiomatosis
Neurocytoma
Subependymal Giant Cell Astrocytoma (SEGA)
Dermoid Cyst
Gliomatosis Cerebri
Oligodendroglioma
Non−Langerhans Histiocytosis;JXG
Osteoblastoma
Rhabdomyosarcoma
Brain arteriovenous malformation
Chondrosarcoma
Choroid plexus cyst
CNS embryonal tumor
Cortical Tubers
Dysembryoplastic neuroepithelial tumor (DNET);Dysplasia/Gliosis;Ganglioglioma
Dysembryoplastic neuroepithelial tumor (DNET);Ganglioglioma
Dysplasia;Gliosis;Glial−neuronal tumor NOS
Embryonal tumor with multilayer rosettes NOS
Ependymoblastoma
Fibroma
Fibromyxoid Tumor
Ganglioglioma;Low−grade glioma/astrocytoma (WHO grade I/II)
Ganglioneuroma
Germinoma;Teratoma
Gliosarcoma
Hamartoma
Intraneural perineurioma
Malignant melanocytic neoplasm
Medulloepithelioma
Metastatic secondary tumors;Neuroblastoma
Myeloid Sarcoma
Myofibroblastoma
Myxoid spindle cell tumor
Neuroinflammatory systemic disease
Non−germinomatous germ cell tumor;Teratoma
Ossifying Fibroma
Primary CNS lymphoma
Reactive Connective Tissue
Reactive Gliosis
Rosai−Dorfman Disease
Papillary glioneuronal tumor
Prolactinoma
