

C

UMAP2

Dysplasia;Gliosis

disease_type_new				
	Adenoma	Dysplasia;Gliosis;Glial-neuronal tumor NOS	Intraneural perineurioma	Non-germinomatous germ cell tumor;Teratoma
	Atypical Teratoid Rhabdoid Tumor	Embryonal tumor with multilayer rosettes NOS	Langerhans Cell histiocytosis	Non-Langerhans Histiocytosis;JXG
	Brain arteriovenous malformation	Ependymoblastoma	Low-grade glioma;astrocytoma (WHO grade I/II)	Oligodendroglioma
	Brainstem glioma – Diffuse intrinsic pontine glioma	Ependymoma	Malignant melanocytic neoplasm	Ossifying Fibroma
	Cavernoma	Ewings Sarcoma	Malignant peripheral nerve sheath tumor	Osteoblastoma
•	Chondrosarcoma	Fibroma	Medulloblastoma	Papillary glioneuronal tumor
•	Chordoma	Fibromyxoid Tumor	Medulloepithelioma	Pineoblastoma
•	Choroid plexus carcinoma	Ganglioglioma	Meningioangiomatosis	Primary CNS lymphoma
•	Choroid plexus cyst	Ganglioglioma;Low-grade glioma/astrocytoma (WHO grade I/II)	Meningioma	Reactive Connective Tissue
	Choroid plexus papilloma	Ganglioneuroblastoma	Metastatic secondary tumors	Reactive Gliosis
	CNS embryonal tumor	Ganglioneuroma	Metastatic secondary tumors;Neuroblastoma	Rhabdomyosarcoma
	Cortical Tubers	Germinoma	Myeloid Sarcoma	Rosai-Dorfman Disease
	Craniopharyngioma	Germinoma;Teratoma	Myofibroblastoma	Sarcoma
	Cyst	Glial-neuronal tumor NOS	Myxoid spindle cell tumor	Schwannoma
	Dermoid Cyst	Gliomatosis Cerebri	Neuroblastoma	Subependymal Giant Cell Astrocytoma (SEGA)
	Dysembryoplastic neuroepithelial tumor	Hamartoma	Neurocytoma	Supratentorial or Spinal Cord PNET
	Dysembryoplastic neuroepithelial tumor (DNET);Ganglioglioma	Hemangioblastoma	Neurofibroma;Plexiform	Teratoma

NeuroInflammatory systemic disease

High-grade glioma;astrocytoma (WHO grade III/IV)
